# Thunkable: Assignment 1

If you completed the Welcome App during class, skip this slide.

Copy the Welcome App

- Click the shared link we sent in #general
- Click the "Thunkable" logo in the upper left corner to exit out to your projects (you should now see WelcomeApp in the list)
- **Make a copy** of this app by clicking "Duplicate" (this will make "WelcomeApp copy")
- **Rename** the copy to "WelcomeApp_LASTNAME"

Make it your own!

Change at least one aspect of the app. Maybe...

- The background color
- The length of time the welcome screen appears
- What the text-to-speech says aloud

...or many more!

It must be a *significant* change. Please don't do something small like change the capitalization of the letters.

Submit

- Make sure the app is named "WelcomeApp_LASTNAME"
- In the upper-right corner of **your** app, click "Share"
- Click "Generate Link"
- Click "Copy" or select the text to copy the link
- Submit the link here: https://forms.gle/Q5q3CtPRP3RAZkq47
