<http://it.gwu.edu>

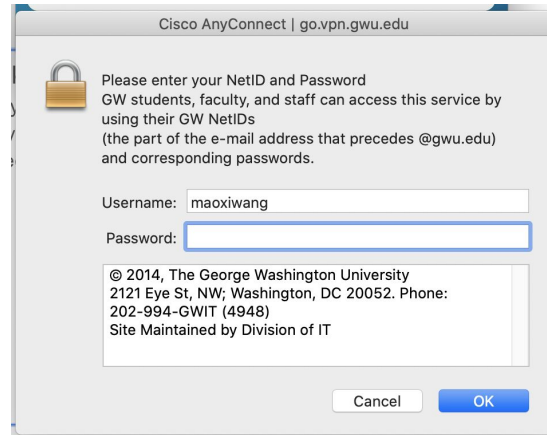

## Step 2:

- Launch the VPN you just downloaded, and in AnyConnect, underneath the Ready to Connect message in the white space type go.vpn.gwu.edu and click on Connect.
- Visual Representation displayed below.

# Step 3:

- You will be asked to enter your username:
  - Username: your net id (the part before the @ of your gwu email).
  - Password: your password associated with your gwu email
  - Visual Representation displayed below for mac.

# Step 4: Last Step

- Next time you launch Cisco Any Connect, the go.vpn.gwu.edu will be replaced by GWVPN which you can select to reconnect.
