# Installing Vensim on Windows

Follow this link to get started: <u>https://vensim.com/free-download/</u>

## Fill out download form

#### Current version: 8.1.1

### Commercial, Government, Consulting Use

### PLE

Ventana Systems is proud to support education with tens of thousands of free PLE downloads every year.

However ... we need the support of non-educational users to sustain our Vensim development efforts. Therefore we ask that commercial and government users purchase an inexpensive license for uses other than software evaluation. This requirement includes any research that lacks an educational component or is proprietary or classified. If there's any doubt, please consult section 7 of the Vensim license.

### Model Reader

The Vensim Model Reader may be distributed for free with your models (including commercial use).

License Agreement Please read the following important information before continuing.	Vensim PLE install options Please select below the purpose of this installation
Please read the following License Agreement. You must accept the terms of this agreement before continuing with the installation.	Vensim PLE can be installed for one of three purposes.
Vensim® Software License This License applies to all versions or configurations of Vensim software that have been supplied to you and is a legally binding agreement between you as a Vensim User (either on behalf of yourself or on behalf of an entity of which you are an authorized representative) and Ventana Systems, Inc. ("Ventana"). If you are using a Vensim configuration provided at no cost, it is still subject to this License. If you are installing an upgrade, this License replaces the original license, which is terminated.	Install PLE for academic, public research or personal use. Commercial, proprietary, classified or operational use not allowed.
